What do Brides do before their big day? They pamper themselves with events, spa trips, beauty days and more.

And guess what? 9 out of 10 Groomsmen wish they had the same treatment! The elite barbers at Forbes Barber Company specialize specifically in male pampering. From the best Haircut you've ever had, to the smoothest Hot Shave you'll ever receive, and with an amazing Black Mask Facial to top it off, Forbes Barber Co is the only barber shop in all of Orange County that specializes in giving you the most relaxing experience you could ever want before your big day. If you choose to bring your Grooms Party to the Barber Shop, we typically offer these packages before and after regular business hours to ensure that the barber(s) have ample time to make sure everyone is completely taken care of. On top of making you look amazing for your big day, we also provide a case of beer of your choice and whatever music selection you prefer. This way, it is also an enjoyable, relaxing environment for everyone to have fun and connect.

Select business hours are available at an additional cost. If you're looking for something outside our facility, don't worry, we still have you covered! We'll send 1-2 barbers to your wedding venue to get the job done as well. The same haircut and experience will occur whether you are in our shop or not. For all inquiries, please email Mark Forbes directly at mark@forbesbarberco.com.
